

PHP Homework for Week 2

Complete your initial student web site. It must contain all the following components:

- A banner at the top.
- Your name must be on the page.
- Your account number should appear on the page. (Not assigned yet)
- A link to another web page, such as:
 - Mission College,
 - The class blog, or
 - Canvas.
- A photo, *preferably of you*.

Assignments in **black** are finished. Assignments in **green** are not finished yet.

| Oct. 20 | Review | - | Midterm Exam | Finished |
| Oct. 27 | Catch Up | - | Team Project (Also here) | Missing links |

- Upload this page to php.missioncollege.edu using your FTP software, which should already be installed on your computer. (FTP software would be WinSCP, Fetch, or FileZilla.)
- The filename must be [index.php](#) or [index.html](#). No other filename is allowed.
- The file must be placed in the [public_html](#) folder.
- A table or bullet list with the weeks of the semester, and the dates, and a space for you to put finished assignments and link them.
- You will add the rest of the assignments later as you complete them.
